

Super Sodium Lignosulfonate

Super Sodium Lignosulfonate

Product Description

Super Sodium Lignosulfonate is pure lignosulfonate has little cellulose and sugar is extracted directly from pure lignin with ph around 9 completely water soluble.

Main Specification

Name	Sodium Lignosulphonate Super Grade
Product Code	GAC-NaLS-Super
Appearance	Black powder
PH value	9.0
Dry matters	95%min
Water-insoluble	0.5%max
Calcium and magnesium	0.5max
Lignosulphonate	95%min
Moisture	7%Max
Ash	3-5%

Package

1. 25kgs woven bags with liner inside,2According Customers'requirement.
